March 15

Scoop Ball

In March students will start with a Scoop ball unit. Students will learn to throw and catch with scoops. Students will play ultimate scoop ball, which is a lead up game for lacrosse.

Sports Science

Students will learn the science behind movement and physical activity. They will be studying the circulatory, respiratory, and muscular/skeletal systems in relation to movement and exercise.

Cooperative Games

Students will review teamwork and sportsmanship during this unit. Students will work together to complete tasks and accomplish common goals.
