

## Distance Learning 2020-2021 School Year

---

PBCCS will offer families the option of participating in a *full time distance learning model* beginning in September 2020.

This education option it will include:

- A synchronous learning model.
  - Students are participating in live lessons and activities daily at the same time as students physically in the classroom.
  - This provides students with a structured learning environment, direct instruction from teachers, and opportunities to interact with peers.
- Daily instruction in math and literacy.
- Independent activities to be completed on a flexible schedule.
- Opportunities to participate in specials and outdoor activities both in-person and virtually.
- Opportunities for one-on-one support with PBCCS staff.

Before choosing this model for your student and family, there are several important factors to consider. For students to be successful:

- Parents need to be engaged in the learning and supportive of the independent activities required.
- Commit to either Semester 1 (September 8 - January 22) OR the full-year (September 8 - June 11). Mid-semester changes will not be accepted.
- Partner and communicate frequently with PBCCS staff.
- Have a reliable and stable internet connection. PBCCS will provide each student with a Chromebook.

**If your family is interested in pursuing a full time distance learning option for the 2020-21 school year please register [here](#) or email [info@powellbuttecharterschool.org](mailto:info@powellbuttecharterschool.org).**

**A PBCCS staff member will be in contact with you to discuss this option and answer any questions.**
