

Fall Reopening Update

July 28, 2020

Greetings PBCCS Families!

PBCCS is ready and excited to support our students as we reenter the 2020-2021 school year in a safe and inclusive environment. PBCCS staff has been working hard to develop a plan that follows the ODE's [Ready School, Safe Learners Guidance](#). This guidance is changing frequently, and the PBCCS team is revising and modifying our plan constantly. It is our deepest desire to see our students in person, but know that the health and safety of our students, staff and community is of utmost priority.

A few weeks ago we shared our preliminary plans for the fall, with the choice of returning to PBCCS **full-time on-site** or **full-time distance learning**. To help you understand these options and navigate your decision for the fall, we've created the following Parent Guide (linked [here](#) or see the attachment). We hope this will help you to make this very difficult and important decision of how you would like your child to return to school this fall.

We value your input and always look forward to hearing your great ideas! Look through the Parent Guide, PBCCS reopening plan and ODE guidelines. Share your thoughts by completing this [survey](#). Or join us for an information session on August 5 at 10 AM or 7 PM via [Google Meets](#).

No matter what option your family chooses, your child will be learning five days a week with the PBCCS teachers and staff providing instruction and support for your child in person or online. School will look different this year, and our team is committed to providing all of our students with high quality instruction and a positive and supportive learning environment.

As we move closer to the beginning of school, you can expect important updates with information on scheduling, school supplies, health and safety protocols, online registration, and new school wide procedures and systems.

It will take everyone working together to learn new routines and to practice safe and healthy behaviors. We appreciate your partnership and support.

Most sincerely,

Mrs. O'Shea & the PBCCS Team
