

## Medication

Students may, subject to the provisions of this Board Policy, have prescription or nonprescription medication administered by designated-personnel, or may be permitted to administer prescription or nonprescription medication to themselves.

### 1. Definitions

- a. "Medication" means any drug, chemical compound, suspension or preparation in suitable form for use as a curative or remedial substance taken internally or externally but not injected except for pre-measured doses of epinephrine, medication to treat adrenal insufficiency and glucagon to treat severe hypoglycemia. Medication includes any prescription for bronchodilators or autoinjectable epinephrine prescribed by a student's Oregon licensed health care professional for asthma or severe allergies.
- b. "Prescription medication" means any medication that under federal law requires a prescription by a prescriber.
- c. "Nonprescription medication" mean medication that under federal law does not require a prescription from a prescriber.
- d. "Adrenal crisis" means adrenal crisis as defined in Oregon Revised Statute (ORS) 433.800.
- e. "Adrenal insufficiency" means adrenal insufficiency as defined in ORS 433.800.
- f. "Notice of a is of adrenal insufficiency" means written notice to PBCCS from a student or a parent or guardian of a student who has been diagnosed as adrenal insufficient with a copy of an order from the student's primary care provider that includes the student's diagnosis, description of symptoms indicating the student is in crisis, prescription for medication to treat adrenal insufficiency crisis and instructions for follow-up care after medication to treat adrenal insufficiency crisis has been administered.
- g. "Prescriber<sup>1</sup>" means a doctor of medicine or osteopathy, a physician assistant licensed to practice by the Board of Medical Examiners for the state of Oregon, an Oregon-licensed, advanced practice registered nurse with prescriptive authority, a dentist licensed by the Board of Dentistry for the state of Oregon, an optometrist licensed by the Board of Optometry for the state of Oregon, ~~or~~ a naturopathic physician licensed by the Board of Naturopathy for the state of Oregon or a pharmacist licensed by the Board of Pharmacy for the state of Oregon.
- h. "Qualified trainer" means a person who is familiar with the delivery of health services in a school setting and who is a registered nurse licensed by the Oregon State Board of Nursing, a doctor of medicine or osteopathy or a physician assistant licensed by the Board of Medical

---

<sup>1</sup>A registered nurse who is employed by a public or private school, ESD or local public health authority to provide nursing services at a public or private school may accept an order from a physician licensed to practice medicine or osteopathy in another state or territory of the U.S. if the order is related to the care or treatment of a student who has been enrolled at the school for not more than 90 days.

Examiners for the state of Oregon; or a pharmacist licensed by the State Board of Pharmacy for the state of Oregon.

- i. "Severe allergy" means a life-threatening hypersensitivity to a specific substance such as food, pollen, or dust or insect sting.
- j. "Asthma" means a chronic inflammatory disorder of the airways that requires ongoing medical intervention.
- k. "Designated personnel" means the school personnel designated to administer medication pursuant to PBCCS policy and procedure.

2. Designated Staff/Training

- a. The administrator will designate personnel authorized to administer prescription or nonprescription medication to a student while the student is in school, at a school-sponsored activity, under the supervision of school personnel, in a before-school or after-school care programs on school-owned property and in transit to or from school or a school-sponsored activity, as required by Oregon law. The administrator will supervise and ensure building and activity practices and procedures are consistent with the requirements of law, rules and this administrative regulation.
- b. The administrator will ensure the training required by Oregon law is provided to designated personnel. Training must be conducted by a qualified trainer. Training will be provided annually to designated personnel authorized to administer medication to students. The first year and every third year of training requires in-person instruction; during the intervening years, designated personnel may complete an online training that has been approved by the Oregon Department of Education (ODE) so long as a trainer is available within a reasonable amount of time following the training to answer questions and provide clarification.
- c. Training will provide an overview of applicable provisions of Oregon law, administrative rules, public charter school policy and administrative regulations and include, but not be limited to, the following: safe storage, handling, monitoring medication supplies, disposing of medications, record keeping and reporting of medication administration and errors in administration, emergency medical response for life-threatening side effects, allergic reactions or adrenal insufficiency and student confidentiality. Materials as recommended and/or approved by the ODE will be used.
- d. A copy of the PBCCS policy and administrative regulation will be provided to all staff authorized to administer medication to students and others, as appropriate.

3. Administering Pre-measured Doses of Epinephrine to a Student or Other Individual

A premeasured dose of epinephrine may be administered by trained, designated personnel to any student or other individual on school premises who the personnel believe, in good faith, is experiencing a severe allergic reaction, regardless of whether the student or individual has a prescription for epinephrine.

4. Administering of Medication to a Student Experiencing Symptoms of Adrenal Crisis

A student experiencing symptoms of adrenal crisis while the student is in school, at a school-sponsored activity, while under the supervision of school personnel, in a before-school or after-school care program on school-owned property and in transit to or from school or a

school-sponsored activity, may be treated by designated personnel and shall be subject to the following:

- a. Upon notice of a diagnosis of adrenal insufficiency, as defined in Oregon Administrative Rule (OAR) 581-021-0037, the administrator will designate one or more school personnel to be responsible for administering the medication to treat adrenal insufficiency;
- b. The designated personnel will successfully complete training to administer medication to treat a student who has adrenal insufficiency and is experiencing symptoms of adrenal crisis in accordance with the rules adopted by the Oregon Health authority;
- c. The student or the student's parent or guardian must provide adequate supply of the student's prescribed medication to the public charter school;
- d. The administrator will require the development of an individualized health care plan for the student that includes protocols for preventing exposures to allergens, and establishes if or when a student may self-carry prescription medication when the student has not been approved to self-administer medication;
- e. In the event that a student experiences symptoms of adrenal crisis and the designated personnel determines the medication to treat adrenal insufficiency should be administered, any available staff member will immediately call 911 and the student's parent or guardian.

5. Administering Medications to a Students

- a. A request to permit designated personnel to administer medication to a student may be approved by the public charter school and is subject to the following:
  - (1) A written request for designated personnel to administer prescription medication to a student, if because of the prescribed frequency or schedule, the medication must be given while the student is in school, at a school-sponsored activity, while under the supervision of school personnel and in transit to or from school or a school-sponsored activity, must be submitted to the public charter school office and shall include:
    - (a) The written permission of the student's parent or guardian or the student if the student is allowed to seek medical care without parental consent pursuant to ORS 109.610, 109.640 or 109.675; and
    - (b) The written instruction from the prescriber for the administration of the medication to the student that includes:
      - (i) Name of the student;
      - (ii) Name of the medication;
      - (iii) Method of administration;
      - (iv) Dosage;
      - (v) Frequency of administration;
      - (vi) Other special instructions from the prescriber, if any-; and
      - (vii) Signature of the prescriber.

The prescription label prepared by a pharmacist at the direction of the prescriber, will be considered to meet this requirement if it contains the information listed in (i)-(vi) above.

- (2) A written request for the designated personnel to administer nonprescription medication to a student must be submitted to the PBCCS Administrator and is subject to the following:

- (a) The nonprescription medication is necessary for the student to remain in school;
- (b) The nonprescription medication is provided in the original manufacturer's container by the parent or guardian of the student;
- (c) The written instruction from the student's parent or guardian for the administration of the nonprescription medication includes:
  - (i) Name of the student;
  - (ii) Name of the medication;
  - (iii) Method of administration;
  - (iv) Dosage;
  - (v) Frequency of administration;
  - (vi) Other special instructions, if any; and
  - (vii) Signature of the student's parent or guardian.

If the written instruction is not consistent with the manufacturer's guidelines for the nonprescription medication, the written instruction must also include a written order allowing the inconsistent administration signed by a prescriber.

- b. An individualized health care and allergy plan will be developed for a student with a known life-threatening allergy and will include protocols for preventing exposures to allergens and procedures for responding to life-threatening allergic reactions while the student is in school, at a school-sponsored activity, while under the supervision of school personnel, in a before-school or after-school care program on school-owned property and in transit to or from school or a school-sponsored activity, and will include a determination on if or when the student may self-carry prescription medication if the student has not been approved to self-administer medication;
- c. It is the student's parent or guardian's, or the student's if the student is allowed to seek medical care without parental consent, responsibility to ensure that an adequate amount of medication is on hand at the school for the duration of the student's need to take medication;
- d. It is the student's parent or guardian's, or the student's if the student is allowed to seek medical care without parental consent, responsibility to ensure that the school is informed in writing of any changes in medication instructions;
- e. In the event a student refuses medication, the parent or guardian will be notified immediately, except where a student is allowed to seek medical care without parental consent. No attempt will be made to administer medication to a student who refuses a medication;
- f. Any error in administration of a medication will be reported to the parent or guardian immediately, except where a student is allowed to seek medical care without parental consent, and documentation will be made on the public charter school's Accident/Incident Report form. Errors include, but are not limited to, administering medication to the wrong student, administering the wrong medication, dosage, frequency of administration; or method of administration;
- g. Medication shall not be administered allowed until the necessary permission form and written instructions have been submitted as required by the public charter school.

6. Administration of Medication by a Student to Themselves

- a. A student, including a students with asthma or severe allergies, may be permitted to administer medication to themselves without assistance from designated personnel and is subject to the following:
- (1) A student must demonstrate the ability, developmentally and behaviorally, to self-administer prescription medication and must have:
    - (a) A permission form from a parent or guardian, except when the student is allowed to seek medical care without parental consent pursuant to ORS 109.610, 109.640 or 109.675, and other documentation requested by the public charter school must be submitted for self-medication of all prescription medications;
    - (b) If the student has asthma, diabetes and/or a severe allergy, a medication that is prescribed by a prescriber and a written treatment plan developed by a prescriber or other Oregon licensed healthcare professional for managing of a student's asthma, diabetes and/or severe allergy, and directs use by the student while the student is in school, at a school-sponsored activity, while under the supervision of school personnel, in a before-school or after-school care programs on school-owned property and in transit to or from school or a school-sponsored activity. The prescriber will include acknowledgment that the student has been instructed in the correct and responsible use of the prescribed medication;
    - (c) The permission to self-administer the medication from the administrator and a prescriber or a registered nurse practicing in a school setting.
  - (2) A student must demonstrate the ability, developmentally and behaviorally, to self-administer nonprescription medication and must have:
    - (a) The written permission of the student's parent or guardian, except when the student is allowed to seek medical care without parental consent pursuant to ORS 109.610, 109.640 or 109.675;
    - (b) The medication must have the student's name affixed to the manufacturer's original container; and
    - (c) The permission to self-administer medication from a building administrator.
  - (3) A student must demonstrate the ability, developmentally and behaviorally, to self-administer nonprescription medication that is not approved by the FDA and must have:
    - (a) The written permission of the student's parent or guardian, except when the student is allowed to seek medical care without parental consent pursuant to ORS 109.610, 109.640 or 109.675; and
    - (b) A written order from the student's prescriber that includes:
      - (i) Name of the student;
      - (ii) Name of the medication;
      - (iii) Dosage;
      - (iv) Method of administration;
      - (v) Frequency of administration;
      - (vi) A statement that the medication must be administered while the student is in school;
      - (vii) Other special instructions, if any; and

(viii) Signature of the prescriber.

- b. The student may have in his/her possession only the amount of medication needed for that school day, except for manufacturer's packaging that contains a multiple dosage, the student may carry one package, such as, but not limited to, autoinjectable epinephrine or bronchodilators/inhalers;
- c. Sharing and/or borrowing of any medication with another student is strictly prohibited;
- d. For a students who has been prescribed bronchodilators or epinephrine, the designated personnel will request that the parent or guardian provide back up medication for emergency use by that student. Backup medication, if provided will be kept at the student's school in a location to which the student has immediate access in the event the student has an asthma and/or severe allergy emergency;
- e. Upon written request from a parent or guardian, and with a prescriber's written statement that the lack of immediate access to a backup autoinjectable epinephrine may be life threatening to a student, and the location the school stores backup medication is not located in the student's classroom, a process shall be established to allow the backup autoinjectable epinephrine to be kept in a reasonably secure location in the student's classroom;
- f. A student shall not administer medication to themselves until the necessary permission form and written instructions have been submitted as required by PBCCS;
- g. Permission for a student to administer medication to themselves may be revoked if the student violates Board policy and/or this administrative regulation; A students may be subject to discipline, up to and including expulsion, as appropriate;
- h. A student permitted to administer medication to themselves may be monitored by designated personnel to monitor the student's response to the medication.

7. Handling, Monitoring and Safe Storage of Medication Supplies for Administering Medication to Students

- a. Medication administered by designated personnel to a student or self administered by a student, must be delivered to the school; in its original container, accompanied by the permission form and written instructions, as required above.
- b. Medication in capsule or tablet form and categorized as a sedative, stimulant, anticonvulsant, narcotic analgesic or psychotropic medication will be counted by designated personnel in the presence of another public charter school employee upon receipt, documented in the student's medication log and routinely monitored during storage and administration. Discrepancies will be reported to the administrator immediately and documented in the student's medication log. For such medication, not in capsule or tablet form, standard measuring and monitoring procedures will apply.
- c. Designated personnel will follow the written instructions of the prescriber and the student or the student's parent or guardian and training guidelines as may be recommended by the ODE for administering all forms of prescription and/or nonprescription medications.
- d. Medication will be secured as follows:
  - (1) Nonrefrigerated medications will be stored in a locked cabinet, drawer or box used solely for the storage of medication;
  - (2) Medications requiring refrigeration will be stored in a locked box in a refrigerator;

- (3) Access to medication storage keys will be limited to the administrator and designated personnel.
- e. Designated personnel will be responsible for monitoring all medication supplies and for ensuring medication is secure at all times, not left unattended after administering and that the medication container is properly sealed and returned to storage.

8. Emergency Response

- a. Designated personnel will notify 911 or other appropriate emergency medical response systems and administer first aid, as necessary, in the event of life-threatening side effects that result from staff-administered medication or from student self-medication or allergic reactions. The parent or guardian, and administrator will be notified immediately.
- b. Minor adverse reactions that result from staff-administered medication or from student self-medication will be reported to the parent or guardian immediately, except when the student is allowed to seek medical care without parental consent pursuant to ORS 109.610, 109.640 or 109.675.
- c. Any available PBCCS staff or person will immediately call 911 and the student's parent or guardian if the designated personnel believes the student is experiencing symptoms of adrenal crisis and plans to administer medication.

9. Disposal of Medications

- a. Medication not picked up by the student's parent or guardian, or the student when allowed pursuant to ORS 109.610, 109.640 and 109.675, at the end of the school year or within five school days of the end of the medication period, whichever is earlier, will be disposed of by designated personnel in a nonrecoverable fashion as follows:
  - (1) Medication will be removed from its original container and personal information will be destroyed;
  - (2) Solid medications will be crushed, mixed or dissolved in water, liquid medications will be mixed or dissolved in water; and
  - (3) Mixed with an undesirable substance, coffee grounds, kitty litter, flour; and
  - (4) Placed in impermeable nondescriptive containers, e.g., empty cans or sealable bags, and placed in the trash.

Prescriptions will be flushed down the toilet **only** if the accompanying patient information specifically instructs it is safe to do so;

Other medication will be disposed of in accordance with established training procedures including sharps and glass.

- b. All medication will be disposed of by designated personnel in the presence of another PBCCS employee and documented as described in Section 10 below.

10. Transcribing, Recording and Record Keeping

- a. A medication log will be maintained for each student administered medication by the public charter school. The medication log will include, but not be limited to:

- (1) The name of the student, name of medication, dosage, method of administration, date, and time of administration, frequency of administration and the name of the person administering the medication;
  - (2) Student refusals of medication;
  - (3) Errors in administration of medication;
  - (4) Incidents of emergency and minor adverse reaction by a student to a medication;
  - (5) Discrepancies in medication supply;
  - (6) Disposal of medication including date, quantity, the manner in which the medication was destroyed and the signature of the staff involved.
- b. All records relating to administration of medications, including permissions and written instructions, will be maintained in a separate medical file apart from the student's education records file unless otherwise related to the student's educational placement and/or individualized education program. Records will be retained in accordance with applicable provisions of OAR 166-400-0010(17) and OAR 166-400-0060(29).
- c. Student health information will be kept confidential. Access shall be limited to those designated personnel authorized to administer medication to students, the student and his/her parents or guardian. Information may be shared with other staff with a legitimate educational interest in the student or others as may be authorized by the parent or guardian in writing or others as allowed under state and federal law.
