

Understanding your positive COVID-19 result

School instructions: *The following information should be printed and provided to the parent or guardian of the student tested or the staff member tested.*

Student name: _____

Date of test: _____

Today, you/your student tested **positive** for COVID-19. This means that you/your student are infected with COVID-19. This is possible even if you/your student don't have any symptoms of COVID-19 or know anyone with COVID-19. Please call your healthcare provider for additional information regarding COVID-19.

Your positive result will be reported to your local public health department, but your test result will otherwise be kept confidential.

Whether or not you/your student have symptoms, **stay home and separate yourself from others**. COVID-19 may spread to others easily. Call your local public health department at _____ to receive instructions on isolation for yourself/your student and quarantine for any close contacts. Public health can also help link your family to services that are available to you/your student while in isolation or quarantine.
