Expand Hands On Learning, Student Opportunities

- Expanded Career & Technical Education Program Spaces
- Updated Athletic Weight Training Facilities
- Upgrades to Student Performing Arts Spaces

Relieve Crowded Classrooms, Plan for the Future

- Construct Additional Classrooms at:
 - Steins Pillar Elementary,
 - Powell Butte Community Charter School
 - Crooked River Middle School

Crook County High School | Built in 1996

- Add additional space for CTE/Shop and Culinary Arts vocational programs.
- Refresh finishes and furnishings that are nearly 30 years old, including areas used by art, drama, and band.

Crook County Middle School | Built in 1952

- Replace roof on educational wings.
- Replace HVAC system, add air conditioning, and improve ventilation/filtration.
- Remodel existing educational wings to gain up to 4 classrooms and improve areas for art, drama, and music.
- Add 10 classrooms and additional cafeteria/multipurpose space.

Barnes Butte Elementary | Built in 2015

- Minor upgrades to reflect actual usage of the school facility, which is slightly different than the original design.

Brothers Elementary | Built in 1988

- Install new surface on the concrete gym floor to improve fall safety.
- Replace HVAC system.

Crooked River Elementary | Built in 1960

- Replace roofing on entire building
- Replace HVAC, add air conditioning, improve ventilation & filtration.
- Remodel and refresh areas that were not remodeled in 2014, focusing on adequate classroom size, art, and music areas.
- Improve parking lots and security lighting.

Steins Pillar Elementary | Built in 1934

- Reroof the entire campus complex.
- Improve heating in the most efficient way (100-year-old boiler).
- Add classrooms to the annex building, creating a permanent home for Grizzly Mountain HomeLink.
- Replace windows with more energy-efficient options.
- Minor remodel work to adapt the building to modern learning.
- Replace the pavement between the gym and South building.

Paulina Elementary | Built in 1948

- Repave east parking area for ADA compliance.
- Improve playground and equipment.

Powell Butte Community Charter School | Built in 1930

- Remove modular structures & add 10 classrooms to expand student capacity.
- Replace HVAC system.
- Redesign pickup, drop-off, bus loading areas to improve traffic flow and safety.
- Replace septic system to handle needs from growth in enrollment.
- Focus on security and safety for staff and students.
