Emergency Procedures: Administering First Aid

- School staff are required to administer first aid for all children unless a parent specifically requests the staff to relinquish the giving of aid.
- If a child of a parent volunteer is hurt or injured, the parent has the right to become the primary first aid giver.

Emergency Procedures: Reporting Injuries and Accidents

- Injuries and accidents that occur at school must be reported to a staff member immediately.
- Field trips and school functions are under the same liability for safety and required reporting.
- School staff must document injuries and accidents promptly.

Confidentiality

- PBCCS expects all its volunteers to keep confidential information *confidential*. This includes information learned about students, families and staff.
- Confidential information is **ONLY** shared with volunteers in order to best serve the needs of a student. When such information is shared, it will be shared with as few people as possible.
